Morning

[This question paper contains 6 printed pages.]

Your Roll No.....

Sr. No. of Question Paper : 9545

Unique Paper Code : 61011404

Name of the Paper : Business Research

Name of the Course : Bachelor of Management Studies
(BMS), 2018 (CBCS)

Semester : IV

Duration : 3 Hours

Maximum Marks : 75

Instructions for Candidates

1. Write your Roll No. on the top immediately on receipt of this question paper.
2. All questions are compulsory.
3. Use of Simple Calculator is allowed.

1. FunTimes Ltd. is a company dealing in kids toys. It was once a big-time brand, but with intense competition in the segment it is finding it difficult to struggle and survive in the market. The company management is planning to diversify into kids wear segment. They wish to know

customer response to the new line and how much their brand name will help in launching the kids wear line for which they want to appoint you as a researcher. Prepare a Research Proposal clearly stating all the stages of the research process to address the above issues. (15)

2. (a) Distinguish between Probability and Non-Probability Sampling. (7.5)

(b) Iceberg Ice creams has launched a new advertising campaign for its exotic flavors of ice cream. Iceberg wants to test the impact of the new commercials on its sales. What research design should it adopt in the given situation? Justify your choice. (7.5)

3. In September last year, Mondelez India Foods Pvt. Ltd introduced Cadbury Fuse, a premium bar chocolate, pitting it against Mars Snickers. Cadbury Fuse is a fusion of peanuts, caramel and chocolate cream, priced at Rs. 20 for a 25-gram bar and Rs. 35 for a 45-gram bar. Mars Snickers costs around Rs. 35 for a 50- gram bar.

Fuse was Mondelez's fourth product launch last year. In August last, it introduced Cadbury Dairy Milk (CDM) Marvellous Creations and CDM Silk Miniatures in India. In April, it launched two new types of biscuits.
