

[This question paper contains 5 printed pages.]

Your Roll No.....

Sr. No. of Question Paper : **6827**
Unique Paper Code : **61011404**
Name of the Paper : **Business Research**
Name of the Course : **Bachelor of Management Studies (BMS),
2023 LOCF**
Semester : **IV**
Duration : **3 Hours**
Maximum Marks : **75**

Instructions for Candidates

1. Write your Roll No. on the top immediately on receipt of this question paper.
2. **All Questions** are compulsory.
3. The Question paper contains **5 Questions** in all.
4. Use of **Simple Calculator** is allowed.
5. Reference to Probability distribution tables (Normal and Chi-Square) is allowed.

1. You have joined a multinational company in the market research department. Your first assignment is to conduct a study on the changing demand pattern for millet based ready to cook foods in the Indian market and evaluate if there is any gap between the demand and supply. Prepare a research proposal for this company clearly stating all the stages of the research process to address the issue. (15)

P.T.O.

2. Car manufacturers claim that there is a relationship between the type of car an individual drives and the number of people in the driver's family. To test the claim, 300 car owners were randomly surveyed and the results are summarised below:

Type of Car

Family Size	Hatchback	Sedan	SUV	MUV
Less than 4	65	4	18	30
Between 4 and 8	60	20	6	30
9 and above	35	6	16	10

Test whether type of car and family size are independent at $\alpha = 0.05$. (15)

3. Social Media influencers are individuals who have established credibility in a specific industry and have access to a large audience. They enjoy the power to persuade others to act, based on their recommendations. No doubt Social Media influencers have emerged as third-party endorser who shape audience attitudes through blogs, posts, tweets, and the use of other social media. But their impact on the younger generation might have both desirable and undesirable consequences. Develop a questionnaire to study how Social Media influencers affect the perception and buying behaviour among the youth. (15)
4. (a) A set of 10 patients suffering from a rare autoimmune disease are selected for treatment. All of them undergo two different treatments namely, A and B. The rating (on a scale of 1-10) of treatment A and treatment B by each patient is given in the following table:

Patient	1	2	3	4	5	6	7	8	9	10
Treatment A	3	4	2	6	2	5	9	7	5	6
Treatment B	9	7	5	10	6	8	8	6	7	9

Test whether there is a difference between the ratings assigned to treatment A and B at 5% level of significance. (15)

OR

- (a) What are syndicated sources of data collection? Elaborate on two prominent sources of syndicated data in the Indian context. (8)
- (b) Explain the characteristics and utility of a Semantic differential scale. (7)

5. Write Short Notes

- (a) Exploratory vs Conclusive research design
- (b) Projective techniques
- (c) Probability vs Non Probability Sampling (7.5 X 2)

Chi-Square (χ^2) Distribution
